

OFF-SITE: ADVANCED BUILDING TECHNOLOGIES - PRESCIENT

Dec 1, 2022

1:30PM-4:30PM

Description

AGENDA

Prescient is a technology company focused on bringing digitization, lean design, and manufacturing systems to the multifamily building industry. Prescient's automated digital processes combine with the use of lightweight steel to create a novel approach to designing, engineering, manufacturing, and assembling multi-unit structures that is faster, greener, and may be less expensive than other systems in the construction industry. We will travel to Prescient's manufacturing plant in the Denver Suburb of Arvada and drive by projects built using Prescient technology.

1:30 pm

Depart Four Seasons

**IMPORTANT: Participants must wear closed-toed shoes
Booties and safety goggles will be provided on site**

1:30 pm – 2:15 pm

Bus ride to Arvada, CO and informational tour

Magued Eldaief, CEO of Prescient, will join HPN members and staff on a bus tour of Prescient projects in Denver. Member participants will have a chance to introduce themselves and state their interest in industrialized construction technologies.

2:15 pm – 3:15 pm

Prescient Factory Tour

Participants will be provided with safety goggles and booties for the tour.

3:15 pm – 4:00 pm

Discussion

Prescient will give a presentation on technical and commercial aspects of their work. HPN members will have time to ask questions and engage in discussion.

4:00 pm – 4:30 pm

Bus ride back to Four Seasons
