

ADVANCING RACIAL EQUITY WITHIN OUR ORGANIZATIONS

June 9, 2022

10:30-12:00PM

AGENDA

Description

As a result of George Floyd's murder and the protest activism that followed, many organizations increased their efforts in diversity, equity and inclusion and racial equity in 2020. Advancing racial equity is a major focus for HPN and HPN members. In this session, we will hear from HPN members that have taken different paths to approach racial equity challenges and be provided a brief overview of what HPN is doing internally. These initiatives are highly complex, can be highly charged emotionally and require focused effort to be successful. Where are you on this path? Are you seeing meaningful change? How are you measuring success? How are organizations sustaining their efforts?
