AGENDA

Description:

Be part of an important dialogue on what HPN members can do *as a network* to enhance our collective impact on racial equity. This conversation will build on the opening plenary and peer exchange session on racial equity the day before to discuss what commitments we may make as a network and what tools we need to achieve them. We will begin to explore ideas on key elements of a strategy for increasing our impact by working together. What might our guiding principles be? What actions might we take in the short and longer terms? How can HPN support this effort?

Welcome/Overview – Lisa Alberghini (5 minutes)
